About Me

An Informatics Engineering student at BINUS University with a keen interest in software development. Experienced in full-stack development, web applications, backend systems, database management, and API integration. Passionate about creating innovative solutions and eager to apply technical knowledge, creativity, problem-solving abilities, and collaborative skills to real-world technology projects.

Projects

MoView - Movie Search Website | 2026

Technologies: Node.js, Express.js, MySQL

- Built a RESTful API and a relational database schema for a film community application, featuring a user review system and movie recommendations.

CAO! - Place Recommendation | 2026

Technologies: Node.js, Express.js, MySQL

- Developed backend services for a location-curation platform, efficiently managing the storage and retrieval of data for lists of favorite places.

NutriMate - Place Recommendation | 2025

Technologies: React, Tailwind CSS, Node.js, Express.js

- Built an end-to-end meal planner application, integrating an interactive UI with backend algorithms to generate personalized diet recommendations.

Wuthering Wares - Fantasy Item Marketplace | 2025

Technologies: Node.js, Express.js

- Developed a fantasy-themed marketplace for trading fictional items such as swords, armor, and potions. Implemented item management and transaction functionalities to simulate a virtual goods trading platform.

Organization experience

Freshmen Leader | Sep 2026 - Present

- Guide and support groups of new students throughout the campus orientation program.
- Facilitate sessions introducing the academic system and campus life to assist new students in their adaptation.

Volunteer - Educational Content Creator, Teach For Indonesia (TFI) | Dec 2025

- Developed and produced video-based learning materials for language subjects to support TFI's community education program.

Education

Bina Nusantara University 2024 - 2028
Bachelor of Computer Science Current GPA: 3.61

Skills

- Front-End: React, Tailwind CSS
- Back-End: Node.js, Express.js, RESTful API
- Database: MySQL
- Languages: JavaScript, TypeScript
- Tools: Git, GitHub, Postman, Figma
